

TERMS OF ACCEPTANCE

When a person seeks chiropractic and rehabilitation health care and is accepted for such care, it is essential for both parties to be working towards the same objective. As a Chiropractic & Rehab facility we have one main goal, to detect and correct/reduce the vertebral subluxation complex. It is important that each person understand both the objective and the method that will be used to attain this goal. This will prevent any confusion or disappointment.

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method is by specific adjustments of the spine.

Health: A state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity.

Vertebral Subluxation: A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do not offer to diagnose or treat a disease or condition other than vertebral subluxation. Regardless of what a disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. **Our Only Practice Objective** is to eliminate a major interference to the expression of the body's innate wisdom and ability to heal. Our only method is specific adjusting to correct vertebral subluxations combined with rehabilitation procedures and to correct joint dysfunctions associated with extremities.

NOTE: It is understood and agreed the amount paid to *Shimer Chiropractic, PC* for x-rays are for examination of spinal alignment only and the x-rays will remain the property of this office, being on file where they may be seen at any time while a patient of this office. Also patient understands that *Shimer Chiropractic, PC* **does not** have on-site x-rays and provide invasive testing/treatment. In the doctor's professional opinion, should any of our patients need x-rays, additional diagnostic testing, or other forms of health care services, they will be referred to an appropriate provider or facility, when indicated.

INFORMED CONSENT TO EXAMINATION AND TREATMENT

I do hereby authorize the doctor(s) of *Shimer Chiropractic, PC* and any therapist(s) and chiropractic technician(s) working at the clinic to administer such care that is necessary for my particular case (or my child/dependent/ward's particular case). This care may include consultation, examination, spinal adjustments, extremity adjustments and other chiropractic procedures, including various modes of physical therapy, spinal flexion/distraction, and spinal alignment assessment on x-rays or any other procedure that is advisable, and necessary for my health care. I intend this consent form to cover the entire course of treatment for my present condition(s) and any future condition for which I seek treatment.

I understand and have been informed that during the process of a thorough examination that my current symptoms/condition may be exacerbated due to the nature of the examination. I do not expect the doctor to be able to anticipate and explain all risks and complications, and I wish to rely on the doctor to exercise clinical judgment during the course of the procedure which the doctor feels at the time, based upon the facts then known, and is in my best interests. The doctor will not be held responsible for any health conditions or diagnoses which are pre-existing, given by another health care practitioner, or are not related to the spinal structural conditions treated at this clinic. There are no guaranties or assurances concerning the intended results of the treatments.

I have had an opportunity to discuss with the doctor of chiropractic and/or with other office or clinic personnel the nature and purpose of chiropractic adjustments/manipulation and other procedures related to my health care (or my child's/dependent's/Ward's health care). I understand that I am responsible for all fees incurred for the services provided, and agree to ensure full payment of all charges. I further understand that a fee for services rendered will be charged and that I am responsible for this fee whether results are obtained or not.

I understand and have been informed that, as in the practice of medicine, in the practice of chiropractic there are some risks to treatment including, but not limited to fractures, disk injuries, dislocations, sprains, paralysis, increased symptoms and pain, or no improvement of symptoms and pain. A rare but serious risk associated with neck manipulation is stroke. I do not expect the doctor to be able to anticipate and explain all risks and complications, and I wish to rely on the doctor to exercise clinical judgment during the course of the procedure which the doctor feels at the time, based upon the facts then known, is in my best interests. The doctor will not be held responsible for any health conditions or diagnoses which are pre-existing, given by another health care practitioner, or are not related to the spinal and/or extremity structural and or biomechanical conditions treated at this clinic. There are no guaranties or assurances concerning the intended results of the treatments.

I also clearly understand that if I do not follow the Doctor's specific recommendations at this clinic, I will not receive the full benefit from the programs offered, and if I terminate my care prematurely, all fees incurred will be due and payable at that time. I understand that *Shimer Chiropractic, PC* **does not** accept or bill insurance, Medicare, and/or any third party carrier for payment and I shall be personally liable for any and all of the services used by the doctor.

I, _____, have read or have had read to me, the above consent to care. I have also had the opportunity to

HEALTH CONDITIONS

Abnormal postural habits or distortions of our bodies are the result of trauma, stress, unbalanced muscles and the affect of gravity on our bodies. When any part of our body becomes misaligned and unbalanced from its normal position, this will cause stress to the nervous system and structures of our body. These imbalances cause poor or abnormal biomechanics within the joints of our bodies. This alteration of biomechanics not only stresses the nervous system but weakens the physical structures of our body leaving us more prone to injury and degeneration. It has been extensively documented that abnormal joint biomechanics, causing stress to your nerves, will weaken and distort the overall structure of your spine. This results in a weakened and distorted POSTURE. Postural distortions have many serious and adverse affects on your overall health. The most common and detrimental postural distortion is called Forward Head Posture, a "hunched forward" posture starting in the neck and progressively moving down your spine weakening the entire body.

Our bodies are one complete integrated system; any injury to our foot will affect our knee, hip and spine. A neck injury such as whiplash can affect our entire body. Please review the health conditions below and identify which condition or symptom you are currently experiencing (current is defined within the last 3 to 6 months) or you have experienced in the past (longer than 6 months ago).

Check the box next to "C" for current condition, "P" for past condition, or you may check both boxes.

Appointment and Cancellation Policies and Procedures

We are excited that you have chosen Shimer Chiropractic, PC. It is our patients that make this office possible and keep it growing. As our office is growing, we need to implement new policies and procedures for appointments and cancellations **effective January 1, 2019.**

Appointments

Walk-In's:

Walk-ins are always welcome however previously scheduled patients take precedence over walk-in patients. Therefore, we cannot ensure that you will be seen if you choose to walk in. Although we are aware of people's busy schedules, we highly recommend scheduling your appointments in advance.

Early Arrival:

Please be aware when arriving early to your appointment – if our schedule is light, we are happy to get you in early. However, if there are patients on the schedule prior to your appointment and present for their appointment, you will have to wait for your scheduled appointment time.

Late Arrival: (5 minutes or greater)

Please be aware, if you happen to arrive late to your appointment – If our schedule is light, we are happy to keep you on the schedule. However, if we have scheduled patients in office for their scheduled appointments, you will forego your scheduled appointment and will be considered a walk-in at that time. If you are the last scheduled appointment for the day and you are over 5 minutes late without a phone call, you will be refused service and charged a no call no show fee of \$35.

Cancellation Policy

For scheduled patients - we ask that if you need to cancel your appointment, you do so 24 hours in advance. We recognize that this is not always possible therefore we appreciate being notified as soon as possible. Please note that a \$35 fee will be charged to your account without a 24-hour notice.

No Call, No Shows:

We understand that people get busy and occasionally forget to make it to their scheduled appointments. However, this does take away the possibility for another patient to receive care. We will waive the first no call, no show. However, after the first no call, no show going forward there will be a \$35 fee charged to your account per scheduled visit missed. This is a separate fee from our packages and plans.

We appreciate your understanding on this matter.

Many Thanks,

Dr. Wendy M. Shimer, DC and Staff
